

Knudsen clinic

Hair loss treatments.

Loosing your hair? Consult Dr. Russell Knudsen, a leading full time specialist in the management of hair loss.

DR RUSSELL KNUDSEN is an internationally recognised and respected specialist in the field of hair loss. With well over 4000 transplant procedures performed over 21 years, Dr Knudsen is highly experienced and regarded amongst his peers. He is a past President of the International Society of Hair Restoration Surgeons and Australian Society of Hair Restoration Surgeons. In 2000 he won The Gold Follicle Award for excellence and his contribution in this field.

Dr Knudsen's personal approach has helped many to look good and feel their best. Dr Knudsen's commitment to his patients is reflected in his desire to give each individual patient competent advice on the best treatment option available for them. He acknowledges that the greatest problem facing patients is trying to wade through the often very confusing information relating to hair replacement options. The simple fact is: there is only one proven, permanent method for getting your hair back and that's hair transplant surgery. Dr Knudsen's personal approach, commitment, artistic ability and specialist skill is clear in the satisfaction of his patients and many referrals.

Dr Knudsen uses recent technical advances and leading edge techniques that allow for a natural appearance whether wet or dry and can be styled the way you like it. Contrary to widespread belief, the hair transplants do not look like 'plugs' or 'doll-like', rather they provide a natural, undetectable, no maintenance solution to hair loss and are yours to enjoy for a lifetime.

Seven out of ten males suffer from hair loss. Balding can make a man feel older and less confident. There is often a misconception amongst balding people that they are helpless to halt the hair loss process. In reality, recent advances in medical therapy offer the ability to stabilise hair loss in over 80% of patients.

When considering a surgeon to help you with your hair loss problems, it's comforting to know that you are in experienced hands. You want professional advice from someone who really knows and who has helped so many men look and feel their best.
